---

## Objective:

To leverage my skills in modern web development technologies, including HTML5, CSS3, JavaScript, and WordPress, to create dynamic, user-focused websites and applications. With expertise in custom WordPress theme and plugin development, I aim to contribute to building responsive, accessible, and performance-optimized web solutions that align with business goals and enhance user experiences. I am passionate about continuous learning and collaborating within a forward-thinking team to deliver innovative digital products.

---

## Internship:

**Mar 2023 – Jun 2023      Frontend & Cross-Platform, Information Technology Institute (ITI)**  
Intensive Training Program (3 Months), Mobile Development Track
